"We are very pleased with our fourth quarter results, capping off a strong year of performance across the Company," said Todd Vasos, Dollar General's chief executive officer. "Our full-year results were highlighted by double-digit diluted EPS growth, as well as our 30th consecutive year of same-store sales growth. During the fourth quarter, we delivered a healthy 3.2% increase in same-store sales, as well as strong margin performance. In addition, we executed well across many fronts, including our operating priorities and strategic initiatives."

"Our value-and-convenience proposition continues to resonate with both new and existing customers, and our unique real estate footprint remains a competitive advantage. As we enter 2020 from a position of strength, we will continue to keep our core customer at the center of all we do, while remaining steadfast in our efforts to deliver long-term shareholder value."

Fourth Quarter 2019 Highlights

Net sales increased 7.6% to \$7.2 billion in the fourth quarter of 2019 compared to \$6.6 billion in the fourth quarter of 2018. This net sales increase included positive sales contributions from new stores and growth in same-store sales, modestly offset by the impact of store closures. Same-store sales increased 3.2% compared to the fourth quarter of 2018, driven by increases in both customer traffic and average transaction amount. Same-store sales in the fourth quarter of 2019 included growth in each of the Company's four product categories - consumables, apparel, home, and seasonal.

Gross profit as a percentage of net sales was 31.8% in the fourth quarter of 2019 compared to 31.2% in the fourth quarter of 2018, an increase of 60 basis points. This gross profit rate increase was primarily attributable to higher initial markups on inventory purchases and a lower LIFO provision. These factors were partially offset by an increase in markdowns as a percentage of sales, a greater proportion of sales coming from the consumables category, which generally has a lower gross profit rate than other product categories, and sales of lower margin products comprising a higher proportion of sales within the consumables category, as well as increased distribution costs.

Selling, general and administrative expenses ("SG&A") as a percentage of net sales were 21.7% in the fourth quarter of 2019 compared to 21.6% in the fourth quarter of 2018, an increase of 13 basis points, primarily due to increases in store occupancy costs, repairs and maintenance expenses, and advertising costs. The 2019 fourth quarter reflects a decrease of approximately \$11.6 million in hurricane and other disaster-related expenses compared to the 2018 fourth quarter.

Operating profit for the fourth quarter of 2019 increased 12.9% to \$720.9 million compared to \$638.5 million in the fourth quarter of 2018.

The effective income tax rate in the fourth quarter of 2019 was 23.0% compared to 21.2% in the fourth quarter of 2018. This higher effective income tax rate was primarily due to an increase in income taxes resulting from changes in state income tax laws and a federal income tax benefit arising from the Tax Cuts and Jobs Act in 2018 that did not reoccur in 2019.

The Company reported net income of \$535.4 million for the fourth quarter of 2019 compared to \$483.2 million in the fourth quarter of 2018. Diluted EPS increased 14.1% to \$2.10 for the fourth quarter of 2019 compared to diluted EPS of \$1.84 in the fourth quarter of 2018. Diluted EPS for the fourth quarter of 2018 included an approximate \$0.04 net negative impact from Q4 Disaster-Related Expenses².

² In the Company's 2018 fourth quarter earnings release dated March 14, 2019, "Q4 Disaster-Related Expenses" were defined as an estimated \$11.7 million of hurricane-related expenses as well as an estimated \$2.2 million year-over-year increase in other disaster-related expenses, both of which were greater than anticipated.

Fiscal Year 2019 Highlights

Fiscal year 2019 net sales increased 8.3% to \$27.8 billion, compared to \$25.6 billion in fiscal year 2018. This net sales increase included positive sales contributions from new stores and growth in same-store sales, modestly offset by the impact of store closures. Same-store sales increased 3.9% compared to fiscal year 2018, driven by increases in both average transaction amount and customer traffic. Same-store sales in fiscal year 2019 included growth in each of the Company's four product categories - consumables, seasonal, home, and apparel.

Gross profit as a percentage of net sales was 30.6% in fiscal year 2019, compared to 30.5% in fiscal year 2018, an increase of 14 basis points. This gross profit rate increase in the 2019 period was primarily attributable to higher initial markups on inventory purchases and a lower LIFO provision. These factors were partially offset by increased distribution and transportation costs, a greater proportion of sales coming from the consumables category, which generally has a lower gross profit rate than other product categories, and sales of lower margin products comprising a higher proportion of sales within the consumables category, as well as higher shrink.

SG&A as a percentage of net sales was 22.3% in fiscal year 2019 compared to 22.2% in fiscal year 2018, an increase of nine basis points. This SG&A increase in the 2019 period as a percentage of net sales was primarily attributable to expenses of \$31.0 million in the 2019 period relating to significant legal matters (the "Significant Legal Expenses"). The 2019 fiscal year includes a decrease of approximately \$22.8 million in hurricane and other disaster-related expenses compared to 2018, as well as an increase in retail labor costs at a rate less than the increase in net sales. Adjusted SG&A as a percentage of net sales, which excludes the impact of the Significant Legal Expenses, was 22.2% in fiscal year 2019, a decrease of two basis points compared to fiscal year 2018.

Operating profit for fiscal year 2019 increased 8.8% to \$2.3 billion compared to \$2.1 billion in fiscal year 2018. Adjusted operating profit for fiscal year 2019, which excludes the impact of the Significant Legal Expenses, increased 10.3% to \$2.3 billion³, compared to \$2.1 billion in fiscal year 2018.

The effective income tax rate in fiscal year 2019 was 22.2% compared to 21.1% in fiscal year 2018. This higher effective income tax rate was primarily due to an increase in income taxes resulting from changes in state income tax laws and a federal income tax benefit arising from the Tax Cuts and Jobs Act in 2018 that did not reoccur in 2019.

The Company reported net income of \$1.7 billion for fiscal year 2019 compared to \$1.6 billion for fiscal year 2018. Diluted EPS increased 11.2% to \$6.64 for fiscal year 2019 compared to diluted EPS of \$5.97 in fiscal year 2018. Adjusted net income and adjusted diluted EPS for fiscal year 2019, which exclude the after-tax impact of approximately \$24.1 million, or \$0.09 per diluted share, from the Significant Legal Expenses, were \$1.7 billion³ and \$6.73³, respectively. Adjusted diluted EPS for fiscal year 2019 increased 12.7% compared to diluted EPS of \$5.97 in fiscal year 2018. Diluted EPS for fiscal year 2018 included an approximate \$0.09 net-negative impact from the combination of Q4 Disaster-Related Expenses defined above and the Disaster-Related Expenses⁴.

- ³ See "Non-GAAP Disclosure" herein.
- ⁴ In the Company's 2018 third quarter earnings release dated December 4, 2018, "Disaster-Related Expenses" were defined as an estimated \$14.1 million of hurricane-related expenses as well as an estimated \$5.8 million year-over-year increase in other disaster-related expenses, both of which were greater than anticipated.

Merchandise Inventories

As of January 31, 2020, total merchandise inventories, at cost, were \$4.7 billion compared to \$4.1 billion as of February 1, 2019, an increase of approximately 7.8% on a per-store basis.

Capital Expenditures

Total additions to property and equipment during fiscal year 2019 were \$785 million, including approximately: \$338 million for improvements, upgrades, remodels, and relocations of existing stores; \$217 million for distribution and transportation related projects; \$149 million for new leased stores, primarily for leasehold improvements, fixtures and equipment; and \$59 million for information systems upgrades and technology-related projects. During fiscal year 2019, the Company opened 975 new stores, remodeled 1,024 stores and relocated 100 stores.

Share Repurchases

In fiscal year 2019, the Company repurchased \$1.2 billion of its common stock, or 8.3 million shares, at an average price of \$145.46 per share, under its share repurchase program. The total remaining authorization for future repurchases was \$1.1 billion at the end of fiscal year 2019. Under the authorization, purchases may be made in the open market or in privately negotiated transactions from time to time subject to market and other conditions. The authorization has no expiration date.

Dividend

On March 11, 2020, the Company's Board of Directors declared a quarterly cash dividend of \$0.36 per share on the Company's common stock, which is a 12.5% increase over the prior quarterly dividend. The dividend is payable on or before April 21, 2020 to shareholders of record on April 7, 2020. While the Board of Directors intends to continue regular cash dividends, the declaration and amount of future dividends are subject to the sole discretion of the Board and will depend upon, among other things, the Company's results of operations, cash requirements, financial condition, contractual restrictions, and other factors the Board may deem relevant in its sole discretion.

Fiscal Year 2020 Financial Guidance and Store Growth Outlook

For the 52-week fiscal year ending January 29, 2021 ("fiscal year 2020"), the Company expects the following:

- Net sales growth of 7.5% to 8.0%
- Same-store sales growth of 2.5% to 3.0%
- Diluted EPS growth of approximately 11.5%
- Diluted EPS growth of approximately 10.0% compared to fiscal year 2019 adjusted diluted EPS, which excludes the impact of the Significant Legal Expenses³
- Diluted EPS assumes an effective tax rate within the range of 22.0% to 22.5%
- Share repurchases of approximately \$1.15 billion
- Capital expenditures in the range of \$925 million to \$975 million, including those related to investments in the Company's strategic initiatives

The diluted EPS growth guidance outlined above includes the anticipated impact of previously implemented tariff rates on certain products imported from China. The guidance does not contemplate any additional increases in tariff rates, any expansion of additional products subject to tariffs, or any tariff-related impacts to broader consumer spending.

Based on information currently known by management, the Company does not anticipate that supply chain disruptions experienced to date as a result of the coronavirus outbreak are likely to have a material impact on its fiscal 2020 financial results. However, the Company continues to monitor this evolving situation, and there is no guarantee that this outbreak will not have a more significant impact on its business.

The Company is also reiterating its plans to execute approximately 2,600 real estate projects in fiscal year 2020, including 1,000 new store openings, 1,500 mature store remodels, and 80 store relocations.

The Company will hold a conference call on March 12, 2020 at 9:00 a.m. CT/10:00 a.m. ET, hosted by Todd Vasos, chief executive officer, Jeff Owen, chief operating officer, and John Garratt, chief financial officer. Non-GAAP Disclosure

Adjusted SG&A, adjusted operating profit, adjusted net income and adjusted diluted EPS, and their respective growth metrics, for fiscal year 2019 have not been derived in accordance with U.S. GAAP, but rather exclude the impact of the Significant Legal Expenses, which are associated with wage and hour and consumer/product certified class action litigation and related matters. In addition, the Company's fiscal year 2020 diluted EPS guidance compared to adjusted 2019 diluted EPS excludes the impact of the Significant Legal Expenses. Due to the nature, infrequency, and financial magnitude of such matters, the Company believes these non-GAAP financial measures provide useful information to investors in assessing the Company's operating performance as these measures provide an additional relevant comparison of the Company's operating performance across periods. Reconciliations of these non-GAAP measures to the most directly comparable measures calculated in accordance with GAAP are provided in the accompanying schedules.

The non-GAAP measures discussed above are not measures of financial performance or condition, liquidity or profitability in accordance with GAAP, and should not be considered as alternatives to SG&A, operating profit, net income, diluted EPS or any other measure derived in accordance with GAAP. These non-GAAP measures have limitations as analytical tools and should not be considered in isolation or as substitutes for analysis of the Company's financial results as reported in accordance with GAAP. Because not all companies use identical calculations, these presentations may not be comparable to other similarly titled measures of other companies.
